Hee So Kim

heesok@andrew.cmu.edu | heesok.github.io
5000 Forbes Avenue, Pittsburgh, PA 15213

EDUCATION

Carnegie Mellon University — Pittsburgh, PA
Ph.D., Program in Neural Computation — Sep 2024 – Present
Advisors: Dr. Jenelle Feather, Dr. Abigail Noyce

Wellesley College — Wellesley, MA
A.B. in Neuroscience, Minor in Computer Science — Sep 2019 - Dec 2022
GPA: 3.90/4.00, Durant Scholars Summa Cum Laude

Massachusetts Institute of Technology (MIT) — Cambridge, MA
Cross-registered student — Jan 2022 - Dec 2022

RESEARCH POSITIONS

Ph.D. Student Researcher, Carnegie Mellon University — Pittsburgh, PA
Advisors: Dr. Jenelle Feather, Dr. Abigail Noyce — Jan 2025 – Present
- Currently working on a project to probe invariances in auditory event categorization using model metamers

Ph.D. Student Researcher (rotational), Carnegie Mellon University — Pittsburgh, PA
Advisors: Dr. Barbara Shinn-Cunningham, Dr. Abigail Noyce — Sep 2024 – Dec 2024
- Worked on projects to (1) investigate how selection demands change talker effects on auditory segregation, (2) analyze connectivity of audio and visual working memory regions using existing fMRI data

Research Associate / Undergraduate Researcher, Massachusetts Institute of Technology — Cambridge, MA
Advisor: Dr. Evelina Fedorenko — Feb 2022 – June 2024
- Worked on projects to (1) localize brain regions involved in prosody processing, (2) characterize the neural architecture of auditory hallucination, and (3) better understand the computations that drive the language network's selectivity for sentences

Research Assistant, Seoul National University — Seoul, South Korea
Advisor: Dr. Sang Ah Lee — Sep 2020 - Aug 2021
- Worked on projects to (1) study the neural correlates of spatiotemporal episodic memory retrieval and (2) understand the effects of emotion on attention and cognition

PUBLICATION & PREPRINT

Kim, H., Lee, E. J., McPherson-McNato, M., Noyce, A., Feather, J. (2026). Investigating invariances in auditory event categorization with model metamers. Proceedings of the 9th Annual Conference on Cognitive Computational Neuroscience (CCN 2026).

Regev, T.I., **Kim, H.**, Jhingan, N., Swords, S., Kean, H., Casto, C., Cole J., Fedorenko, E. (2025). A distinct set of brain areas process prosody—the melody of speech. *bioRxiv.*

Regev, T.I., **Kim, H.**, Chen, X., Affourtit, J., Schipper, A.E., Bergen, L., Mahowald, K., Fedorenko, E. (2024). High-level language brain regions process sublexical regularities. *Cerebral Cortex*, 34(3), p.bhae077.

Kauf, C., **Kim, H.**, Lee, E.J., Jhingan, N., She, J.S., Taliaferro, M., Gibson, E., Fedorenko, E. (2024). Linguistic inputs must be syntactically parsable to fully engage the language network. *bioRxiv.*

Regev, T., **Kim, H.,** Shinn, A., Fedorenko E. (in prep.). The neural basis of auditory hallucinations.

CONFERENCE & WORKSHOP

Kim, H., Lee, E.J., McPherson-McNato, M.J., Noyce, A.L., Feather, J. (August 2026). Investigating Invariances in Auditory Event Categorization with Model Metamers [Poster Presentation & Contributed Talk]. *Cognitive Computational Neuroscience*, New York City, NY.

Kim, H., Lee, E.J., McPherson-McNato, M.J., Noyce, A.L., Feather, J. (February 2026). Probing Invariances in Auditory Event Categorization Using Model Metamers [Poster Presentation & Poster Blitz]. *Annual Midwinter Meeting of the Association for Research in Otolaryngology*, Puerto Rico, PR.

Kim, H., Noyce, A.L., McPherson-McNato, M.J., Feather, J. (November 2025). Probing Invariances in Auditory Event Categorization Using Model Metamers [Poster Presentation]. *Speech and Audio in the Northeast.* New York City, NY.

Regev, T., **Kim, H.**, Jhingan, N., Kean, H., Casto, C., Fedorenko, E. (October 2022). Neural representation of prosody [Poster Presentation]. *Annual Meeting of the Society for Neurobiology of Language*, Philadelphia, PA.

AWARDS

Travel award for ARO Annual Midwinter Meeting Feb 2026

ACTIVITIES & OUTREACH

Pennsylvania Governor's School for the Sciences (PGSS) Summer Program Pittsburgh, PA
Mentor Sep 2025

- Co-mentored a team of 6 high school students for a project titled "Comparing Human and Machine Perception of Faces Using EEG Responses."

Gelfand Outreach Program Pittsburgh, PA
Teacher Sep 2025

- Co-designed and taught a course for 6-8th graders called "Sensing Brain" on how our brains sense and process the environment around us

Local Meetup for Conference on Cognitive Computational Neuroscience (CCN) Pittsburgh, PA
Organizer Aug 2025

- Co-organized a local meetup at CMU to virtually watch the 8th annual conference on Cognitive Computational Neuroscience and hosted 50 academics across four days

Science Mentorship Institute (Sci-MI) San Jose, CA
Head of Recruitment, Computational Director, Mentor Mar 2022 – Jan 2025

- Recruited and interviewed 80+ undergraduate and graduate mentors, advanced efforts to recruit high school students from underrepresented communities, participated in the student admissions process
- Developed and taught a 4-week computational lecture and lab series in R, mentored 3 high school students to conduct their first research project through the Neuroscience Mentorship Program

Neuroscience Club Wellesley, MA
Board Member Sep 2021 - Dec 2022

- Established a new outreach committee, designed and led an Introduction to Neuroscience Workshop for PBHA's Boston Chinatown Afterschool Program, developed activities including supplemental labs and Neuroscience Major panel to increase lowerclassmen engagement within the major

SKILLS

Languages: English (fluent), Korean (fluent), Spanish (elementary).
Programming: MATLAB, Python, R, Java.
Other Interests: Classical violin, Tennis, Rock Climbing, and Film photography.
